

### EXEMPTION OF TAX BRINGS A BOOM IN BUILDING OF HOMES

Bronx, Brooklyn and Queens Show Activity in Catching Up With Apartment Shortage.

Signs of a home-building boom, encouraged by the new tax exemption ordinance, were numerous to-day in reports from the boroughs of Brooklyn, Queens and the Bronx. The Manhattan and Richmond figures are not yet ready.

In Brooklyn Albert E. Kleinert, Superintendent of Buildings, reported that plans had been filed since the exemption ordinance calling for 169 new buildings for dwelling purposes at an estimated total cost of \$1,416,250. These buildings will house 221 families.

In Queens the rate of applications for building permits jumped from ten a day to fourteen a day immediately after the passage of the ordinance. It was estimated that one builder in Jamaica, whose building will house 73 families, will save in ten years under the exemption the amount that normally would be collected on an investment of \$250,000. His building will cost only \$200,000.

Patrick J. Ravello, the Bronx Superintendent of Buildings, told an Evening World reporter that nearly half of the housing projects filed this year have been filed in the brief period since the exemption ordinance went into effect, Feb. 25. He predicted great activity in house building within the next few months. Plans on file call for buildings costing more than \$1,500,000.

In all boroughs the number of "To Let" signs is increasing.

Dead, Gas Tube in Mouth. Louis Gaber, twenty-three years old, was found dead with a gas tube in his mouth last night in a furnished room he occupied at No. 229 East 39th Street. He left no note or other explanation. Gaber was single and is not believed to have had any relatives in this city.

WHETHER it is more blessed to give than to receive has been settled long ago by dictum. But it is difficult to say which is more conducive to an inner glow—when the token is an Ovington gift.

This is probably the most important opportunity in house-keeping linens that has come to New York since our great sale of a year ago which set a new record in linen-selling.

The linens came from the same linen centre—mostly Czech Slovakia, which was bottled up during the war until we opened the market.

They are such linens as have not come to this country since before the war—pure flax without dressing, full of life, fine of texture, a delight to the eye and to the touch as you see and feel them.

Back to pre-war qualities they are, and back to pre-war prices in most cases, where we can make comparisons.

"Won't you please save me six of these cloths," said a woman who saw us unpacking them.

"My, My!" said another, as she felt the linens—"such weight and quality I haven't felt in years—save me that large cloth."

Now, don't think that our enthusiasm is running away with us—or with these women who happened to get a "behind the scenes" view, and that we are "only advertising," or you will miss a chance to get something your heart has wanted for years.

An all night ride. Arrival at Prague 6 o'clock in the morning. Bidding out in the country to the linen factory. Routing the owner out of bed. Opening up the factory before breakfast. \* \* \* This is the way the linens were found and bought. They were already wrapped, and in their original wrappings we had them shipped at once.

Here they are—ready Tuesday—the old-time pre-war quality at prices that will send the linens flying into people's homes.
